DATA SOURCES (Not all necessarily apply to this map):  
Parcel boundaries were compiled on 1979 1:1000 scale orthophoto base maps and are updated continuously.  
Building footprints and road edge-of-pavement originally from Boston Edison (based on 1991 aerial photos); Newton staff have updated buildings from subdivision plans and orthophotography.  
Thematic data (eg. Land Use) are from the Assessor's CAMA data base.  
\*\* Truck Exclusions - Use and operation of heavy commercial vehicles is limited on the streets listed in Sec. 19-83, City of Newton ordinances (revised 1995). Some streets are restricted only during certain hours. The restriction on others applies only to vehicles over a certain weight. See the ordinance cited above for street specific details. MDC streets (Hammond Pond Plow, and Quinobogin Rd) also have truck exclusions.  
\*\* One-Way Streets - These are mapped based on the street names listed in Sec.19-85, City of Newton ordinances (revised 1995). Limited restrictions include: ADAMS STREET - 400 - 600pm only. MAYNARD STREET - 300 - 500pm only. The restrictions for COMMONWEALTH AVE are not shown here because of their complexity and/or because necessary map features do not exist in the GIS database. See the city ordinance cited above for details.  
\*\* Private and Un-Built Streets - These streets were mapped based on information provided by the city's Department of Engineering. Un-built streets exist in that there is a legal right-of-way but the street has not been constructed. In some cases there is a dirt road or a footpath.

CITY OF NEWTON, MASSACHUSETTS  
Mayor: Scott D. Warren  
GIS Administrator: Douglas Greenfield

Map Date: January 06 2014

The information on this map is from the Newton Geographic Information System (GIS). The City of Newton cannot guarantee the accuracy of this information. Each user of this map is responsible for determining its suitability for his or her intended purpose. City departments will not necessarily approve applications based solely on GIS data. Applicants for city permits must inquire of the relevant city department for applicable requirements. City staff correct errors as they are identified. Newton's GIS Administrator maintains records regarding the source materials and methods used to create the digital data and will disclose this information upon request.
